

**My Mosler Biography:**

**Alice J. Schwab** – In 1978, I was hired by the Mosler Safe Company as a temporary in Engineering Services with Bob Hopkins. The “Bid outs” followed: to Quality Assurance with Dick Gardner; to a clerk in the plant with Frank Stidham; then finally out to be an Expeditor with Mike Walters.

When things began to diminish in the plant, I was laid off in 1990, and was told by Mike Walters that I would mostly likely not be called back.

So, in need of a job, I went back to my past training as having been a registered nurse. In April 1991, after a refresher course at Bethesda Base Hospital, I was hired as Night Supervisor at Butler County Care Facility.

In 2008, I retired. During my working years, I had traveled to all 50 states, which I thoroughly enjoyed. I have done some volunteering at Partners In Prime, Lifespan, Grace United Methodist Church, and am active in PERI.

I live in Hamilton, OH; have two sons, Michael and David, and one granddaughter, Emily. Life is good, and my health is good for which I am thankful!
