

My Mosler Biography:

Bob Collins – I became a member of The Mosler Safe Company in October 1964, when I was hired by Doug Miller. Thus began my career in the Cincinnati Service Branch until 1975, when I took a brief departure from Mosler to work for the L & N Railroad.

By 1976, I returned to Mosler, settling into the Cincinnati Service Branch once again, working for Mel Aston. It was there I stayed for twenty-three years, until 1999 when once more I left. However, it was for just one week. When contacted by John Gallant and asked to return, I did come back to my Cincinnati Branch.

My career with Mosler Inc. continued for a total of 35 years, until August of 2001 when the company closed its doors forever.
