

My Mosler Biography:

Bobby G. George – I joined Mosler in 1966 where I worked in the Engineering Department as a design Engineer on Deposit Boxes and special projects. I worked under Mark Betcher, Max Gobelt and Paul Umstead. We were all under the Direction of Dick Scully and Nick Maus. Our Secretary was Bonnie Allen.

I was employed with Mosler for 26 years. My wife Grace also worked for Mosler. We both retired on April 1, 1992. We live in Hamilton, Ohio where we have been retired for 22 happy years. The picture below was taken at our 50th Wedding Anniversary in August 2004.
