

**My Mosler Biography:**

**Gene Gabbard** – I joined Mosler in 1958 as a production scheduler-expeditor. Hired by Art Ittel (Kim Gebhart’s grandfather), I worked for Paul Armstrong, Al Humbert and Lou Molvin. Given the job of expediting service parts and repairs through Plant 1 in Hamilton, I quickly came to know Dee Grover who was hired to implement a national service organization.

In 1964 I was transferred to the Service Parts Department (Plant 3) on Belle Avenue where I subsequently worked for Don Laney, Gordon Schaub, Jack Smith, Dee Grover, Walter Sands, Bob Fisher and Larry Watts.

I served as a Parts Correspondent, Supervisor of Parts Dept., Manager, Parts Department, Manager – Parts, Repair, and Photoguard Operations, and finished my career as Manager of Purchasing – Marketing Division.

I left Mosler after 20 years in 1978 to pursue a career in computer technologies. My wife Jean and I live in Dayton, OH and our two daughters, Jennifer and Meredith, reside in Cincinnati, Ohio.
