

My Mosler Biography:

Gordon Schaub - I began working at Mosler in 1957 when I was hired by Helm Rieff who was then the Service Parts Manager and company Paymaster.

When A. Dee Grover was hired to organize a National Service Operation, I helped set up the Service Parts Storeroom where replacement parts and materials would be stocked for field service operations and customer service requirements.

I subsequently became Supervisor of the Service Parts Order Department and then Manager of the National Service Parts Department, reporting to Jack Smith and later, to A. Dee Grover.

I was directly involved in development of processes and procedures that served both Mosler customers and the rapidly expanding service organization.

I am pleased to have been part of the team that founded one of the most successful divisions within the entire company.

I left Mosler in 1965 and continue to reside in beautiful Fairfield, Ohio.
