

My My Mosler Biography:

Larry Greer – I joined Mosler on April 1st, 1969, as an alarm technician. Hired by Dave Coleman in the Dallas Branch, I worked for Charlie East along with 3 others. The balance of the Dallas office consisted of Harold Lewis and an RTS tech, Don Boyne and Mike Doyle, vault techs. By my third week both the alarm techs and the trainee had quit, leaving Charlie and me to handle the Dallas, Fort Worth market. It was a rocky start to a long and enjoyable career at Mosler.

Worked as an alarm technician until 1980 when I transferred to Houston as the BSM. Later in 1981, I assumed the duties of installation and service under Jimmy Dye and later Allen Arnold.

In 1983 I left the management side of the business and became a Technical Specialist for the Houston office and later the entire region. While working in Houston I taught several classes at the Hamilton Training center. I made several trips to Saudi and Kuwait for projects and trained our agents in Athens, Greece and Frankfurt, Germany.

I was with Mosler until the bitter end. We were on a family vacation when we got the news and elected to remain.

I live in Houston with my wife Sylvia. My son is just a few miles away, so we get to enjoy two grandsons. One daughter is in Dallas and the other at the Lake of the Ozark, MO. We spend a lot of time spoiling grandchildren and leaving them with the aftermath. Isn't payback great?
