

My Mosler Biography:

Linda L. Reace – I started at Mosler in 1968; Gene Gabbard hired me to type parts orders for the Service Parts Department (Plant 3 at Belle Ave). I was in the Parts Department for 28 years working for: Ray Click, Jerry Wallace, Jim Redden, Wayne Mays and Jake Jacobs. I then became Manager, Service Parts Department which included Order Entry, Purchasing, Inventory Control, Warehouse and Repair Center, reporting to Jack Smith, VP of Installation & Service.

In 1997 I moved to Manager, Order Entry for Products and reported to Tom Bell (CFO). After working on the implementation team for new software I moved to the Purchasing Department as a System Analyst reporting to Mike Hopkins, VP of Operations.

I was on vacation when Mosler closed the doors for the last time so I never had the opportunity to say good-bye to everyone. In some ways I'm glad I missed that last day.

After Mosler closed I was hired by ADT and was with them for 9 months. I then worked at Portion Pac Inc (Div. of Heinz) for 3 years before moving to the Butler County Board of Elections. I have been there for the past 9 years and will be retiring next month.
