

My Mosler Biography:

Peggy Combs - I started working at the Mosler Safe Company in 1979 in the Quality Control Department, for Bob Meiner, Dick Gardner, and, of course, with my dear sweet friend Mary Lintner.

Next, I worked for Bob Hopkins in the blueprint room. From there I became an expeditor working for Jim Molinsky in several different departments.

Mosler did me a huge favor (although I didn't think so at the time) by laying me off in late 1990. In the spring of 1991, Miller Brewery hired me as one of only 168 employees out of a pool of 50,000!

In 2007, I retired from Miller Brewery. Now I keep busy with several volunteer opportunities and various other projects.

My husband, Roland, and I reside in Hamilton; we will be married 48 years this August. We have one daughter, two sons (twins), and seven grandchildren.
