

My Mosler Biography:

Susan (Shultz) Hatfield - I was employed by the Mosler Safe Company in Seattle, Washington the first part of March 1968.

At that time, I told Mosler that I planned to work one year, saving my money, and then was going to quit my job and travel the states for an indefinite period of time. Long story short, 13 plus years later I did finally quit and went on to other things.

My jobs and opportunities with the company, and the people for whom I worked, varied while I was there. I started out as an office clerk, went on from there to secretary to the District Service Manager. Next followed senior clerk, branch service manager, bank sales, and out the door.

The people I worked for were Jerry Seitz, Don Hyatt, Jerry Stites, Bill Steiner (R.I.P. Bill), Nils Pearson, Ed Veasey, Peter McNerny, and Charlie Ryan.

I am forever grateful to Mosler for my time with them, and am so looking forward to our gathering.

My husband, Lloyd, and I reside in Arlington, Washington.
