

**My Mosler Biography:**

**Terry Klinzing – My association with Mosler began in June 1968 with the Mosler R.E.A.C.H. program- rewards through activity and challenge. A group of us were paid minimum wage to take a summer workshop covering vocational topics such as shop math, metal FAB, welding, and machine operations, taught by Hamilton vocational instructors Joe Kaufmann and Darrell Baker. After completion, many of us were offered employment with the company.**

**I started in the Service department under Gene Gabbard in September 1968. Mosler paid 50% of my tuition and I continued in night school studying electronics. I worked for Paul Miner, Gary Brees, and Mike Mettler.**

**Later on I worked at Plant 1, 2 and 4 until being laid off in the summer of 1971. The company was paying most of my tuition at the University of Cincinnati. I went on to work for Kroger Company, and graduated from Miami University. I taught school briefly before being appointed to the Hamilton Fire Department. I am currently in my 15<sup>th</sup> year as Deputy Chief of Operations.**

**My time with Mosler was a growing experience with many nice, interesting people - some other names that come to mind from the basement: Bill Snider, Elby Harrison, Mark Deaton, Jon Sullivan, Don Jones, the 431 Crew - Randy, Harvey, The Turk, The Indian, and Ozzie Demmel.**

**My wife, Peggy, and I reside in Fairfield. I enjoy walking, biking, yard work, and travel. We have been to every state, and just returned from our 30<sup>th</sup> country.**
